

The Hebden 2014-Bulletin No 2

This Bulletin is being sent to Sportident entrants using that company's group email facility and by normal email to those who entered by post.

Route Change and Relocation of CP6

We have had to make a further change to the route. Access to CP6 is no longer possible by car at its present location because the closure of Scout Road has been extended. Originally the closure allowed the marshals access but in the last few days this has changed.

CP6 will therefore be located further along the new route and this will prevent you from using the old route. As previously confirmed we shall waymark the new route. There will be an additional mileage of about 500 yards.

Weather

The weather forecast is mixed with mist and drizzle to start with and more persistent rain later. The ground is water logged with extensive mud in places but equally there are still many parts with firm ground.

Hope you have an enjoyable and safe day.
